DETAILED ACTION

The amendment filed 11/13/03 is acknowledged.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Raymond Chan on 12/16/03.

The application has been amended as follows:

Claim 14 is amended as follows:

In Claim 14, line 15, **After** "anti-flip member" **Insert** - - integrally - -

Claim 16 is cancelled.

Allowable Subject Matter

Claims 1-15 and 17-20 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: Upon consideration, the examiner has determined that the prior art of record does not disclose a scooter body including rear wheels, a transmission unit and steering means as disclosed by the applicant, as well as a

Art Unit: 3618

twister member connected to the connecting portion of the transmission unit, with a separate individual "supporting arm" element frontwardly extended from the driven portion of the twisting member, further in combination with, an anti-flip member that is a safety wheel which is rotatably mounted to a free end of the supporting arm to prevent the scooter from being flipped over. With regards to amended claim 14, the prior art does not disclose the elements of the scooter body discussed above and further including the newly added limitation of an anti-flip member "integrally" extending rearwardly and downwardly from a bottom side of a rear portion of the scooter body to define a rear distance between the anti-flip member and the ground and such that the rear distance is shorter than a vertical clearance between the scooter body and the ground. A combination of these and other limitations have not been reasonably found in the prior art.
